

VIVOS[®] APPLIANCES

Preventative: Guided Growth and Development

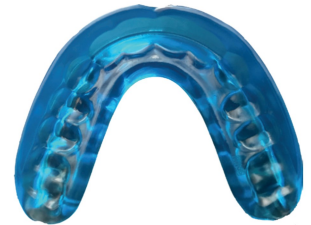

Starter[™]

- 2 sizes for patients ages treatment ages 4 and up
- Worn passively (while sleeping)
- Promotes nasal breathing, arch and jaw development, and correct tongue posture
- Generally delivered for immediate use before the use of the Vivos PEX, Vivos Guides

Way[™]

- Designed for full dentition patients with 2nd molars erupting or erupted
- Preformed sockets perfectly proportioned for intercuspation
- Strong material to withstand pressures of activewear
- Arch width-sized in coordination with size of teeth

VG^x[™]

- Second generation of Vivos Grow appliance
- Digitally redesigned from ground up
- Symmetrically designed to follow Vivos arch analysis
- Increased width in molar regions
- Improved finishing for smoothness and comfort
- High polished cavities for improved translucency
- Size 30, 40, 50, and 60

PEX[™]

- State-of-the-art digitally designed pediatric expander
- For mixed dentition cases where a Vivos Guide may not be the ideal starting point
- Fully digital process from design to fabrication
- Increased patient comfort
- Less provider chair time and fewer patient appointments
- Efficient and predictable
- Reduced fabrication time

VIVOS[®] APPLIANCES

Management: MAD Appliances

Versa[™]

Three-Year Warranty

- FDA class II cleared for mild and moderate OSA in adults and snoring
- Fully digital design and fabrication, using latest 3D printing of nylon materials
- Silky smooth finish through proprietary finishing process to maximize smoothness
- Versa 9 option for highly customizable titration system
- Versa Nylon EMA for freedom of movement, comfort, and lateral bruxers

Rescue[™]

- Next generation of permanent dentition jaw repositioners
- Universal fit for most patients
- High level of comfort for patients while custom device is fabricated
- Offers mild (VR1) and moderate (VR2) advancement options
- Included in all Vivos DNA, mRNA, and mmRNA case starts
- FDA Class I device

emaNow[™]

- EMA NOW is the chair side rescue device used to temporarily reposition the mandible
- Off the shelf availability (Can be stocked in practice)
- Customized fit using latest thermo-technology
- Can be refitted as needed multiple times, works well as interim device if fabricated appliance needs repair
- Uses EMA Band Technology for repositioning mandible
- May be used over clear aligners if mandibular advancement is needed during the night
- Available now on the Vivos Aire product page

VidaSleep[™]

- FDA Cleared a class II medical device, the Vivos Vida Sleep[™] provides a trusted, safe, and effective solution for mild to moderate sleep apnea in adults
- Effective Sleep Apnea Treatment: With the Vivos Unilateral BiteBlock Technology®, the Vida Sleep[™] is designed to advance the mandible incrementally to stabilize the patient's oropharyngeal airway
- Efficient and sleek design promotes increased space for tongue to the roof of the palate, which may help with the reduction of snoring
- Reduced Muscular Activity: The Vivos Unilateral BiteBlock Technology® reduces trigeminally innervated muscular activity, contributing to a more restful sleep
- Unique design decreases contact points between the maxillary and mandibular teeth that may help reduce clenching and overall bite forces while sleeping
- Patient Comfort: The Vivos Vida Sleep[™] has a customized design which ensures a comfortable fit, encouraging consistent usage for optimal outcomes

VIVOS[®] APPLIANCES

TMD/Migraines/Nasal Dilation Appliance

Vida[™]

- FDA Cleared as unspecified classification for the alleviation of TMD symptoms and FDA registered Class I for nasal dilation for ages 12 and up
- The Vivos VIDA[™] (Preventive Oral Device) aids in treating bruxism and TMJ Dysfunction, helping to alleviate symptoms such as TMJ/TMD, headaches, and facial muscle pain
- Its unique Vivos Unilateral BiteBlock Technology[®] limits occlusal contacts and increases anterior tongue space, reducing muscle tension and alleviating TMJ-related pain
- Worn during sleep, the Vivos VIDA[™] serves to protect teeth and restorations from the destructive forces of bruxism
- The Vivos VIDA[™] is custom-fabricated, simple to deliver, and requires very few follow-up adjustments, ensuring patient comfort and increasing the likelihood of successful outcomes
- Available as a 3D Print

VIVOS[®] APPLIANCES

Rehabilitation: CARE appliances

DNA[™]

- The Vivos DNA appliance[®] has 510(k) clearance from the FDA as a Class II medical device for the treatment of snoring, mild-to-moderate OSA in adults and jaw repositioning
- First device of its kind to receive Class II regulatory clearance
- Original expansion technology with multiple upper and lower arch configurations
